Big Seed and Plant Specialty

"SNAPDRAGONS"

We have made a good deal of Snapdragons for years, always using the best obtainable, but last season we got in touch with some new kinds that far surpass any other outdoor sorts we have formerly sold, and we have dropped our old kinds entirely.

ORCHID—Mauve pink, tube darker, tip of yellow on the lip.

APPLEBLOSSOM—Rich appleblossom pink.

CRUSADER—Very large flowers, reddish maroon with a cast of crimson.

ROSE—Shades of deep pink, mostly with yellow throats. Exquisite decorative variety.

SNOWFLAKE—Absolutely finest giant white.

SUNSHINE—A brilliant deep yellow—wonderful.

WALLFLOWER—Contains many shades of coppery red, old gold and kindred tones. Most popular with our visitors.

MIXED—The above and all other shades of this grand flower.

We expect to have the plants ready April 15th, extra strong stock at \$1.00 a dozen, any 3 dozen, \$2.50.

Seeds of any, per pkt. of 300 to 500 seeds, 15c; any 4 for 50c.

Snapdragons bloom over a long period and are not hurt by ordinary freezes.
